part01_frameworks — Framework Landscape and ADK

> Paired with Lecture Notes **Part 1 · 01. Framework Landscape and ADK** (Slides 5–15). Comparison of the 5 major frameworks, architectural paradigms, and selection criteria.

Part 1 is a conceptual lecture, so **there is no hands-on lab code**. This guide document is placed here solely to align the folder numbering with the Part numbers in the lecture notes.

Slides	Topic	Related Hands-on Lab
6	Agent Framework vs Agent Platform	Part 11 Deployment Target → `../part11_eval_deploy/`
7–10	Overview of the 5 Major Frameworks · Claude Agent SDK · OpenAI Agents SDK · AutoGen · LangGraph · Google ADK 2.0	Your First ADK Agent → `../part04_llm_agent/`
11–14	Architectural Paradigms · Comparison Matrix	Graph Workflows → `../part09_graph_workflow/`
15	Selection Guide: Hybrid Combinations	Multi-Agent Systems → `../part08_multi_agent/`

For setting up the lab environment (`uv` , Python 3.11+, `.env`), follow the root README(Overview)-KR.md.
